12:56 pm. I checked it. I created a file
and tried to upload it to an archive, but
it throws an error. I also tried uploading
it as part of another archive (without
using the archive command) but it
won't be created. I also found that I
don't need to save it as a file, but
apparently that makes a difference.
Since I'll be using it to check for
changes, I think I really should save it
as a .zip and then download it from
<http://www.zalala.org/>.
