But it seems I cannot find the RPM package for the centos 5.4 Can I install the specific package for the centos 5.4? Or is there any other solution to my problem? A: Centos 5, and Centos 4 before 5.4, use the same repos. yum install httpd yum install mysql-server There is no MySQL 5.4 for centos 5.x, only 5.1. Note, the CentOS repositories are safe for use. There are no repositories with untrusted packages, no packages that are known to expose security issues, and that are not well-maintained or with untested security update history. Here's a great article how to install apache on centos 5, and mysql with a proper
